

I am a pre-final year B.Tech Information Technology student with hands-on experience building AI-powered and web applications, including an AI plant disease detection project using Python, TensorFlow, CNN, and web frontends with HTML, CSS, and JavaScript. I enjoy collaborative research-style work and am eager to grow my skills on real-world, large-scale AI and computer problems.

Projects

Frontend developers / Idea Contributor • Personal project

- Built MISTA, a responsive web platform to surface AI-powered insights on food and beauty product ingredients using HTML, CSS, and JavaScript.
- Implemented mobile-friendly layouts and interactive components to ensure usability across devices.
- Integrated AI-driven content outputs into the UI to promote transparency and informed decision-making for users.

Frontend developers / Idea Contributor • Personal project

- Developed an Expense Tracker web application with end-to-end features, covering both client-side and server-side using CodeIgniter.
- Created a responsive user interface to visualize spending and improve clarity of personal finance data.
- Collaborated on backend logic to handle user inputs and persist expense records.

Frontend developers / Idea Contributor • Personal project

- Contributed to an AI-based plant disease detection systems using leaf images, leveraging convolutional neural networks in TensorFlow and Python.
- Prototyped a web interface with HTML, CSS, and JavaScript to allow users to interact with the model and view prediction results.
- Used Jupyter Notebook and Kaggle as platforms for experimentation and model development workflows.

Full Stack Development Intern • Digisailor

June 2025 July 2025

- Completed a full stack development internship, contributing to both front-end and back-end tasks as assigned.

Education

Bachelor of Technology B.Tech , Information Technology, Vel Tech High Tech Dr. Rangarajan Dr. Sakunthala Engineering College (Autonomous), Chennai **2023 Present**

Higher Secondary Education Grade 11 12 , Baren Bruck Higher Secondary School, Bungalow Surandai **2021 2023**

Certificates

- Prompt Design in Vertex AI GOOGLE CLOUD
- Build Real World AI Applications with Gemini and Imagen GOOGLE CLOUD

Skills
